## About Your **KAMELEON 6**

### Easy to use unique "EL" display

By choosing the ONE FOR ALL **KAMELEON 6** universal remote control you have opted for easy use. Your **KAMELEON 6** features a unique, user-friendly backlit display, which ensures you have easy access to all the keys you need, whilst hiding those you don't. Made of the strictest quality, it will provide long-term satisfaction. After replacing batteries, you will need to first press any key before the screen will light up. From then on, the display will automatically illuminate whenever the remote is picked up (touching screen and remote simultaneously). It is also possible to change the activation-mode into activation by key press. To set the "EL" display to activation by key press, see page 3, section: "EL" screen activation setting. Also, this product comes with a build-in light sensor which will increase the brightness in a bright environment and decrease the brightness in a dark environment.

### Controls up to 6 devices

Your **KAMELEON 6** is designed to let you use one remote to operate your Video and Audio equipment; any device designed to be operated by an infrared signal. Your **KAMELEON 6** comes with 2 IR (infra-red) wide range transmitters for maximum range and is High Frequency capable up to 450 kHz. You can choose any combination of six devices you would like to operate (see page 10 for more information).

### Learning feature

The **KAMELEON 6** comes equipped with the unique "learning feature", which means that you can copy almost any function (max.  $\pm 30$ ) from your original (working) remote control onto your new **KAMELEON 6** (See "Learning Feature" on page 13). This comes in handy, when after having setup your **KAMELEON 6** you may find that some functions from your original remote are missing on your **KAMELEON 6** key pad.

### Macros (sequence of commands)

Your **KAMELEON 6** comes with an easy-to-use Macro feature, allowing you to send several commands with the press of a single key (for example turning a few devices on or off). You can use the custom keys (A, B, C) for this feature. Once you programmed a macro on one of these keys, the sequence will be performed in every mode.

### Code upgrade technology

Your ONE FOR ALL **KAMELEON 6** also offers a Code upgrade technology. This technology gives you the possibility to add codes to the memory. If your device uses a particular code which is not found in the **KAMELEON 6** memory (using the "Direct code set up" on page 10 or the "Search Method" on page 11) you may use the "Code Upgrade Technology" (see page 23). Thanks to this technology your **KAMELEON 6** will never become obsolete.

## Batteries

Your **KAMELEON 6** requires 2 AA/LR6 alkaline batteries.

1. Push the battery door upwards and lift it up to remove it.
2. Match the batteries to the (+) and (-) marks inside the battery case, then insert the batteries.
3. Replace the battery cover by pushing downwards and allowing it to click back into position.

---

- *After re-installing the batteries, the entire "EL" display will be lit for a duration of 6 seconds upon the first key press after which it will default to the TV mode.*

---

### Low Voltage Indicator

As soon as the batteries run out of power the **KAMELEON 6** will indicate this. The IR indicator will flash 5 times whenever you press a key. Please make sure to replace them with 2 new AA/LR6 alkaline batteries.

# The Keypad

This product features an "EL" panel (Electro Luminescence technology) which is activated by touching screen and remote simultaneously and/or by keypress. In order to save battery life, the "EL" screen will stay illuminated for 8 seconds during normal use. If you want you can change the "**EL**" **Screen activation setting** from activation by touching screen and remote simultaneously and/or by keypress. If you want you can also change the "**EL**" **On time setting**. It is also possible to adjust the "**EL**" **Screen brightness-settings** on the **KAMELEON 6** "EL" panel. One of the key features of the **KAMELEON 6** is the "EL" display, which changes to suit the device you are controlling. The overview on page 4 and 5 will show you all the possible screens and the functions that you will obtain.

	= MAGIC (hat) key
	= The animated IR Indicator that will light up during programming

## "EL" Screen activation setting

The **KAMELEON 6** features an "EL" panel which is activated **by touching screen and remote simultaneously** or **by keypress**.

It is possible to **lock** the **KAMELEON 6** to one activation setting:

-  **Press and hold the MAGIC key until the rabbit comes out of the hat (the screen will change to the setup screen).** 
-  Press **OTHER**.
-  Now press **9 8 9**. The IR Indicator will blink twice (or 4 times).  
 -> If the animated IR Indicator blinks **twice** the "EL" panel will be **activated only by touching screen and remote simultaneously**.  
 -> If the animated IR Indicator blinks **four times** the "EL" panel will be **activated only by keypress**.

Simply perform these steps to lock the **KAMELEON 6** to the activation setting that you prefer.

## "EL" Screen brightness adjustment

To increase or decrease the brightness of the **KAMELEON 6** "EL" screen:

-  **Press and hold the MAGIC key until the rabbit comes out of the hat (the screen will change to the setup screen).** 
-  Press **BRIGHT**.
- >  To increase the brightness of the "EL" screen press and hold **CH+**.  
 ->  To decrease the brightness of the "EL" screen press and hold **CH-**.
-  Press **ESC** to store the brightness setting and return to the setup screen.

- Increasing the brightness of the **KAMELEON "EL"** panel can decrease the battery life. Battery life varies from 3 - 12 months (depending on brightness setting and usage).

# The Keypad

## "EL" On time setting

To change the time (default: 8 sec.) that the *KAMELEON 6* "EL" screen will be ON, after each keypress during use of the remote (not programming mode):

- 
**Press and hold the MAGIC key until the rabbit comes out of the hat (the screen will change to the setup screen).**

- 
**Press OTHER.**
- 
**Press 9 7 8.**
- 
**Press 1, 2, 3, 4 or 5 (e.g. 1 = 4 seconds) depending on your choice, see table below. The animated IR Indicator will blink twice and the remote will return to the setup screen.**

Selection	"EL" On Time
1	4 seconds
2	8 seconds (default)
3	12 seconds
4	16 seconds
5	20 seconds

# The Keypad

## 1. IR (infra-red) Indicator

The IR Indicator animates when IR is being "sent" or "received". The *KAMELEON 6* animated IR Indicator will show "outgoing IR" whenever a function key is pressed. When using the "Learning Procedure" the animated IR indicator will show "incoming IR". The IR Indicator will give feedback when keys are pressed both during normal use and in programming mode (the bottom part of the IR indicator will blink).

## 2. Device keys

The TV, VCR, SAT, DVD, CD and AUD keys select the device to be controlled. For example pressing the TV key allows the remote to control the functions of your Television, after pressing VCR you can operate your Video Recorder, after pressing the SAT key you can operate your Satellite Receiver or Cable Converter etc. (see page 10 for more details). After pressing a device (mode) key on your *KAMELEON 6* the applicable device icon will light up, to show the currently activated mode. Pressing the device key will allow you to return to the main screen (TV, VCR, SAT, CD, AUD modes).

## 3. MAGIC (in "shifted" or "programming" mode)

The MAGIC key is used to set up your *KAMELEON 6* and to access special functions. If you press this key shortly, the screen will go into "shifted" mode (for 10 seconds) which will give access to some secondary functions such as color, brightness and sleep timer.

## Programming mode

If you press the MAGIC key longer (about 3 seconds), the *KAMELEON 6* will go into "programming" mode. The screen will change to the "setup screen" and the rabbit appears.

You will obtain the following setup functions:

<b>DEV SET</b>	• Device Setup mode
<b>SEARCH</b>	• Search Method
<b>MODE</b>	• Mode re-assignment
<b>KEY MAGIC</b>	• How to program missing functions
<b>MACRO</b>	• How to setup a key (A, B or C) with a Sequence of commands
<b>BRIGHT</b>	• "EL" Screen brightness adjustment
<b>IR LEARN</b>	• How to copy functions from your original working remote onto the <i>KAMELEON 6</i>
<b>IR DELETE</b>	• Deleting learned function
<b>VOLUME</b>	• Volume punch through feature
<b>OTHER</b>	<ul style="list-style-type: none"> <li>• Channel simulation</li> <li>• Variable EL On time (4 sec, 8 sec, 12 sec, 16 sec, 20 sec)</li> <li>• Operational Reset</li> <li>• <i>KAMELEON 6</i> - Timer</li> <li>• EL screen activation setting</li> <li>• Code Verification</li> <li>• Modem Upgrade</li> </ul>

## 4. SCROLL

The SCROLL key gives you the possibility to move through the different screens (if applicable) within a certain mode during normal use and programming mode. This only applies in TV, VCR, SAT, CD and AUD modes.

# The Keypad

5.  **POWER (in shifted mode; Sleep timer)**  
The POWER key controls the same function as on your original remote. In shifted mode (accessed by pressing MAGIC shortly and releasing it) the POWER key becomes the Sleep timer function (see page 19).
6.   **PP / RANDOM**  
In TV and SAT mode this key may feature the "Last Channel", "Previous Program" or "Recall" function (depending on your original remote control). In CD, AUD and DVD mode you will obtain the RANDOM (or shuffle) function.
7.    
 **PVR / PRESET / EJECT**  
In SAT mode the "PVR" key will change the screen into SAT PVR (Personal Video Recorder), which will bring up the transport functions (REW, PLAY, FF etc.). If your digital satellite receiver or cable converter has a built in recording function, you can operate it with these keys.  
In AUD mode, the PRESET key will change to the PRESET/MENU screen allowing access to the PRESETS 1 - 9, 0 and +10 on the digits. If available on your original remote you will obtain the EJECT function (in VCR, CD, DVD modes).
8.   **16:9 / PROG**  
In TV mode you will obtain the 16:9 (screen format) function. In VCR, DVD, AUD and CD mode you will obtain the PROG (program) function.
9.    
 **TV/SAT / TV/VCR / TV/DVD**  
In SAT mode you will obtain the TV/SAT function. In VCR mode you will obtain the TV/VCR function. In DVD mode you will obtain the TV/DVD function.
10.    
 **INFO / TIMER / BACK**  
In SAT and DVD mode you can select the "info" function. In VCR mode you will obtain the TIMER RECORD or TIMER ON/OFF function. In SAT menu mode you may use the "back" key to go to the previous menu screen.
11.   **FAV / SP/LP**  
In SAT mode you will obtain the FAV (favourite) function. In VCR mode you will obtain the SP/LP (tape speed) function.
12.   **AUDIO / TUNE -**  
In DVD, SAT and AUD mode you will obtain the "Audio" function. In AUD mode you will obtain the "TUNE -" function in the preset/Menu screen.
13.   **GUIDE / DSP**  
In SAT mode the "GUIDE" key will change the screen into SAT-menu mode and give you the "Guide" function, if available on your original remote. In DVD mode you will obtain the "Guide" function, if available on your original remote. In AUD mode you will obtain the "DSP" function.
14.   **SUBT. / TUNE +**  
In SAT, DVD and AUD main mode you will obtain the SUB-TITLE function. In AUD mode you will obtain the "TUNE +" function in the preset/Menu screen.

# The Keypad

15.  **MENU**  
Pressing this key will allow you to operate the Menu and in TV, VCR, CD, AUD and SAT mode will also change the screen to the menu mode. The MENU key operates the same function it did on your original remote control.
16.  **EXIT**  
The EXIT key will operate the same as on your original remote. To return to the main screen (TV, VCR, SAT, CD, AUD mode) press the device key or use the SCROLL key.
17.  **MUTE**  
The Mute key operates the same function it did on your original remote control.
18.  **CH +/- (in shifted mode; brightness +/-)**  
These keys operate just as those on your original remote. In shifted TV mode (accessed by pressing MAGIC shortly and releasing it) these keys may provide you the brightness +/- function.
19.  **CENTRE / REAR**  
In AUD mode these keys will (if available on your original remote) allow you to adjust the CENTRE and REAR levels of your speaker(s).
20.  **SURROUND / OK**  
If available on your original remote this key will allow you to access the surround mode of your device. In menu mode this key will confirm your choice. On some devices you can confirm your menu option simply by pressing MENU.
21.  **Directional keys**  
If available on your original remote control, these keys will allow you to navigate through the menu. On some TV's you may have to press CH+/- and VOL+/- keys OR the color keys (red, green, yellow, blue) to navigate through the menu, depending on your model of TV.
22.  **VOL +/- (in shifted mode; colour +/-)**  
The volume keys operate just as those on your original remote. In shifted TV mode (accessed by pressing MAGIC shortly and releasing it) these keys may provide you the colour +/- function.
23.  **Number keys / INPUT (in prog. Mode; setup features)**  
The number (1 – 9, 0) keys provide functions just like your original remote. In AUD mode, the number (1 – 9, 0, +10) keys may provide (if available on your original remote) an INPUT function (TUNER, CD etc.). If your original remote features an "function select" or "input select" function you may find this under the SEL key. **When in programming mode the digit keys will display the various setup features.**
24.  **-/-- / +10**  
If your original remote uses one/two digit input switching (-/-- symbol), this function can be obtained by pressing the -/-- key. In DVD, CD or AUD mode you will obtain the +10 function.
25.  **AV / SEL (input select)**  
The AV key operates the same function it did on your original remote control. If your original remote uses a 20 key, this function can be found by pressing the AV key. If your original audio remote comes with a "function select" or "input select" function, you can obtain this pressing the SELECT key.

# The Keypad

26.  **ESC**  
This key only appears in programming mode and is used to return to the Setup screen or to exit programming mode.
27. **Teletext Keys**  
These keys are used to operate the main teletext functions. Of course, your Television must have teletext capability. For a more detailed explanation of teletext and fastext, please refer to the manual of your television. Remember, different televisions control teletext and fastext functions in different ways. Not all of the teletext functions may be available on your particular model.
-  **EXPAND:** Shows the top half of the teletext page in larger letters. By pressing again, you can see the bottom half of the teletext page enlarged. To return to regular teletext viewing, press the EXPAND key again, or press the TEXT ON key, depending on your television.
-  **TEXT ON:** In TV mode: once in text mode, pressing this key may switch to MIX or TURN OFF text, depending on your television. This function is also available in SAT mode.
-  **HOLD/STOP:** Stops changing pages.
-  **MIX:** Shows both text and TV picture.
-  **TEXT OFF:** In TV mode: switches the television back to regular viewing mode. On some televisions this may be done by pressing the "TEXT ON" key several times. This function is also available in SAT mode.
-  **TEXT INDEX:** This key will give you access to the index function within the text mode.
28.  **Red / Green / Yellow / Blue**  
When accessing the text mode, the colour keys marked red, green, yellow and blue, allow you to access the fastext functions of your television. If on your original remote control these keys are used for Menu navigation, the *KAMELEON 6* Fastext keys may operate the same.
29.  **Transport keys (PLAY, STOP etc.)**  
When in VCR, DVD, SAT ("PVR"), CD or AUD mode; these keys operate the transport functions (PLAY, FF, REW etc.) of your device. To prevent accidental recording, the RECORD key must be pressed **twice** to start recording.
30.  **SKIP (+/-)**  
These keys operate just as those on your original remote. In SAT ("PVR"), CD, AUD and/or DVD mode they will function as SKIP (TRACK) +/- keys.
31.  **Custom keys (A, B, C)**  
The custom keys are spare keys that give you the possibility to customize the *KAMELEON 6* according to your original remote control using the "Learning feature" (see page 13) or "Key Magic®" (see page 24). These keys are also ideal for use as "Macro keys" (see page 21).

# Setting up the **KAMELEON 6**

(How to set up the **KAMELEON 6** to control your devices)

**Example: To set up the **KAMELEON 6** for your television:**

1. Make sure your television is **switched ON** (not on standby).
2. Find your device code in the **Codelist (page 26 - 52)**. Codes are listed by device mode and brand name. The most popular code for each brand is listed first. If your brand is not listed at all in the code section, try the Search Method on page 11.
3.  **Press and hold down the MAGIC key** (for about 3 seconds) until the rabbit comes out of the hat (the screen will change to the setup screen). 
4.  Press the **DEV SET** key.
5.  Press and release the **TV** key to select the device type you like to setup.
6.  Enter your **four-digit code** using the number keys. The animated IR Indicator will blink twice. 
7.  **Now, aim your **KAMELEON 6** at your television** and try the following keys to test if the **KAMELEON 6** will work with your device;
  - **CHANNEL +, CHANNEL-**
  - **VOLUME +, VOLUME -**
  - **MUTE**
  - **POWER.**
8.  If your device is responding, **press OK to save the code**. If your device does not respond, just enter the next code listed under your brand. If none of the codes listed for your brand operate your device, then try the Search Method described on page 11.
9.  **Press ESC twice to return to user mode (all keys are displayed), OR press a device key to select the next device you like to setup.**

- Most TV's do not switch back on pressing the **POWER** key, please try pressing "**CHANNEL+**" key to switch your TV back on.
- Some codes are quite similar. If your device does not respond or is not functioning properly with one of the codes, try another code listed under your brand.
- To set up your other devices, follow the same instructions above, only press the appropriate device key during step 5.
- Remember to press the correct device key before operating your device. Only one device can be assigned to a device key.

To set up a second TV, VCR, SAT, CD, AUD or DVD (See page 16).

# Setting up the **KAMELEON 6**

## Search Method

- > If your device does not respond to the **KAMELEON 6** after you have tried all the codes listed for your brand.
- > If your brand is not listed at all.

The Search Method allows you to scan through all the codes contained in the memory of the **KAMELEON 6**.

### Example: To search for your TV code:

1. Switch ON your Television (not on standby).
2.  **Press and hold down the MAGIC key** (for about 3 seconds) until the rabbit comes out of the hat (the screen will change to the setup screen). 
3.  Press **SEARCH**.
4.  Press and release the **TV** key to select the device type you like to setup.
5.  Next, press **POWER**.
6.  **Point the KAMELEON 6 at your Television. Now press CH+ over and over, until your Television turns off** (every time you press the CH+ key the **KAMELEON 6** will send out a POWER signal from the next code contained in the memory).  
  
**You may have to press CH+ many times (up to 150 times) so please be patient. Remember to keep pointing the KAMELEON 6 at your Television while pressing this key.** (If you skip past a code, you can go to the previous code(s) by pressing the CH - key.)
7.  **When your Television switches off, press the OK key to store the Code.** The animated IR Indicator will light up twice. 
8.  Press **ESC to return to the setup screen**, or press a **device key** if you want to perform the Search Method for another device.
9.  **Press ESC again to return to user mode (all keys are displayed).** Turn your device (television) back on and try all the remote's functions to ensure they are working properly. If you cannot control your Television properly, please continue the Search Method, you may be using the wrong Code.

- During step 5, instead of **POWER** you can also press any other key displayed. This will be the function sent for the next key presses of CH+ or CH- in step 6. If for example; during step 5, you press "2" instead of "POWER", the **KAMELEON 6** will send the "number 2" signal every time you press CH+ during step 6 (make sure your TV is switched to another channel).
- To search for your other devices, follow the same instructions above, only press the appropriate device key during step 4.
- If your Video's original remote control does not have a **POWER** key, press **PLAY** instead of **POWER** during step 5.

## Code blink out

(To find out which code is currently programmed)

If you have set up your *KAMELEON 6* via the Search Method, you can blink back your code for future reference. Please note that the animated IR Indicator will indicate the 4 digits by animated blinks.

**Example: To blink out your television code:**

1.  Press and hold down the **MAGIC** key (for about 3 seconds) until the rabbit comes out of the hat (the screen will change to the setup screen). 
2.  Press **OTHER**.
3.  Press **9 9 0**, the animated IR Indicator will light up twice. 
4.  Press and release the **TV** key to select the device type you like check the code for.
5.  For the **first** digit of your **four-digit code**, press **1** and count the blinks of the animated IR Indicator. If there are no blinks, the digit is "0". 
6.  For the **second** digit, press **2** and count the animated blinks. If there are no blinks, the digit is "0". 
7.  For the **third** digit, press **3** and count the animated blinks. If there are no blinks, the digit is "0". 
8.  For the **fourth** digit, press **4** and count the animated blinks. If there are no blinks, the digit is "0". **Now you have found your four-digit code.** 
9.  Press **ESC** to return to the setup screen OR press a **device key** if you want to perform the blink out for another device.
10.  Press **ESC again** to return to user mode.

- To blink back the code for your other devices follow the instructions above, only press the appropriate device key during step 4.

## Quick code Reference

Write down the codes for your devices in the boxes below for quick and easy reference.

	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>		<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>

# Learning Feature

(How to copy functions from your original working remote onto the **KAMELEON 6**)

The **KAMELEON 6** comes with a complete library of pre-programmed codes. After you have set up the **KAMELEON 6** for your device, you may find that there are one or more keys that you had on the original remote control, which do not have a place on the **KAMELEON 6** keypad.

The **KAMELEON 6** offers a special Learning feature that allows you to copy almost any function from your original remote control onto the keypad of the **KAMELEON 6**.

## Before you start:

- Make sure your original remote is working correctly.
- Make sure neither your **KAMELEON 6**, nor your original remote control is pointing at your device.

## Learning (direct)

**Example:** To copy the "mono/stereo" function from your original TV remote control onto the "A"-key of your **KAMELEON 6**.

1. Place the **KAMELEON 6** and your original remote control on a flat surface. Make sure the ends which you normally point at your device are facing each other. Point the original remote to the front of the **KAMELEON 6** (see picture below). Keep the remotes at a distance of 2 to 5 cm (0.8 to 2 inches).

2.  **Press and hold down the MAGIC key** (for about 3 seconds) until the rabbit comes out of the hat (the screen will change to the setup screen). 
3.  **Press IR LEARN.**
4.  **Press the device key** (Example: **TV** key) on the **KAMELEON 6** remote to select the mode to which you want to copy the learned function.
5.  **Press the key** (Example: **"A"** key) on the **KAMELEON 6** remote where you want to place the learned function. The IR Indicator will show "incoming IR" three times and then the display will switch off.
6.  **Press and hold** the key that you want to copy (Example: **mono/stereo**) on your original remote control. The display switches back on and you will see two blinks to indicate successful learning operation.
7. If you want to copy other functions within the same mode, simply repeat steps 5 and 6 pressing the next key you want to copy by learning. If you want to copy another function in a different mode, simply continue with step 4 followed by steps 5 and 6.
8.  **To exit the learning mode and return to the user screen, press the ESC key twice.** (x2)

## Learning Feature

---

- As soon as the display switches off in step 5 you need to press the key (in this example: the "mono/stereo" key) on your original remote within 10 seconds. If no key is pressed while in learning mode, the remote will return to user mode after 30 seconds.
  - During learning, keys such as (TV) menu, (VCR) menu etc. will not change screen when pressed.
  - If you learn a function on a key, the original KAMELEON 6 function automatically becomes shifted. Press the MAGIC key then the key to access it (this excludes the POWER, Channel and Volume keys). If you learned on a digit key, access the original function by pressing magic twice and then the digit.
  - If you want to learn a function on a key that is not in the main screen, use the SCROLL key to change the screen.
  - The learning feature is mode specific. Therefore you can place one learned function per mode on the same key.
  - The KAMELEON 6 can learn approximately 30 functions. The amount of keys depends on the other programmed functions and on the remote to be learned from.
  - You can replace a learned function by placing another learned function on top.
  - Please make sure not to use the learning procedure when in direct sunlight or under incandescent lights.
  - Make sure you are using new batteries before following the learning instructions above.
  - Upon changing the batteries, your learned functions will be retained.
- 

### Shifted Learning

It is also possible to place a function *shifted* on a key to maintain the original function.

**Example:** to place the **mono/stereo** function *shifted* on the "red" key.

To place the (e.g. **mono/stereo**) function shifted on the red key, simply follow steps 1-8 on page 13, only press "**MAGIC**" then the "**red**" key (instead of "A") during step 5.

To access the e.g. "mono/stereo" function in this example; simply press "**MAGIC**" and then the "**red**" key.

---

- If a Shifted Learned function is placed on the POWER, Channel and Volume keys then the "Sleeptimer" and "Colour & Brightness" features will be sacrificed.
  - If you place a function shifted on a digit key (0 - 9) you need to press MAGIC twice then the digit key to access this shifted function.
-

## Learning Feature

### To delete a learned function:

To delete one single learned function, follow the steps below.

Example: to delete the **mono/stereo** function learned on the **"A"** key in **TV mode**:

1. **Press and hold the MAGIC key until the rabbit** comes out of the hat (the screen will change to the setup screen).
2. Press **IR DELETE**.
3. Press the device key (example **TV**) in which the function will be deleted.
4. Press the learned key which you want to restore (example **"A"**) **twice**. The IR Indicator will blink twice and the unit will return to the setup screen.

---

- *The original function (if present) of the KAMELEON 6 will be restored.*  
- *If there is another learned function you want to delete, repeat steps 2 – 4.*

---

### To delete a "Shifted" learned function:

To delete one single "shifted" learned function, follow the steps below.

Example: to delete the **mono/stereo** function learned *shifted* on the **"red"** key in **TV mode**:

1. **Press and hold the MAGIC key until the rabbit** comes out of the hat (the screen will change to the setup screen).
2. Press **IR DELETE**.
3. Press the device key (example **TV**) in which the function will be deleted.
4. Press **MAGIC** then press **twice the learned key** which you want to restore (example **"red"** key). The IR Indicator will blink twice and the unit will return to the setup screen.

---

- *The original function (if present) of the KAMELEON 6 will be restored.*  
- *If there is another Shifted learned function you want to delete, repeat steps 2 – 4.*

---

### To delete all learned functions within a certain mode:

Example: to delete all learned functions within the TV mode:

1. **Press and hold the MAGIC key until the rabbit** comes out of the hat (the screen will change to the setup screen).
2. Press **IR DELETE**.
3. Press the **mode key** in which you want to delete all functions **twice**. In our example, press **TV twice**. The IR Indicator will blink twice and the remote will return to the setup screen.

### Operational Reset:

The Operational Reset will erase all learned functions across all modes. It may also delete some other programmed functions like Key Magic or Macros.

1. **Press and hold the MAGIC key until the rabbit** comes out of the hat (the screen will change to the setup screen).
2. Press **OTHER**.
3. Press **9 8 0**. The IR Indicator will blink four times and the remote will return to the setup screen.

## Extra Features

### Mode re-assignment

(How to set up two of the same devices on the *KAMELEON 6*)

It is possible to change the mode of any device key. This is useful if you want to set up two of the same devices on the *KAMELEON 6*. The modified device key will display the applicable keys for the revised mode. The code can be set up using the "Direct set up" (p. 10) or "Search method" (p. 11). To change a device key, see the two examples below.

**Example 1;** if you like to program a second TV on the DVD key.

**Example 2;** if you like to program a second VCR on the SAT key.

#### Example 1:

To program a second Television on the DVD key (for example), you need to change the DVD key into a TV key, so press:

**The DVD key has now become a second TV key and will display the applicable keys for this mode.**

Now enter the Set-Up code for your second TV by pressing:

#### Example 2:

To program a second Video Recorder on the SAT key (for example), you need to change the SAT key into a VCR key, so press:

**The SAT key has now become a second VCR key and will display the applicable keys for this mode.**

Now enter the Set-Up code for your second VCR by pressing:

- If you program a different device type on another key (e.g. second TV on the DVD key) the original device key icon will remain, but the displayed function keys will change to suit the new device mode. For example; if a second TV is programmed on the DVD key, TV-text functions will be displayed in DVD mode.

### Resetting a Device key

Example: To reset the DVD key to its original mode, press:

- (\*) Hold down the MAGIC key until the rabbit comes out of the hat (the screen will change to the setup screen).
- (\*\*) The animated IR Indicator will blink twice (the screen will change to the setup screen).

## Extra Features

### Colour & Brightness

Depending on the functions of your original remote control, the *KAMELEON 6* can operate the colour and brightness settings of your Television.

**To adjust the colour:**

Press the **MAGIC** key followed by **Volume +** (for colour +) or **Volume -** (for colour -).

**To adjust the brightness:**

Press the **MAGIC** key followed by **Channel +** (for brightness +) or **Channel -** (for brightness -).

Depending on how you used colour and brightness on the original remote, you may need to access colour and brightness in a different way (through menu for example).

### Channel +/- simulation

If your original TV, VCR or SAT remote control does not have any channel +/- keys, your *KAMELEON 6* can simulate this function.

**Example: to program “Channel +/- Simulation” in TV mode:**

1. **Press and hold the MAGIC key until the rabbit** comes out of the hat (the screen will change to the setup screen).
2. Press **OTHER**.
3. Press **9 7 1**. The IR Indicator will light up twice.
4. Press the device (e.g. **TV**) which should give a channel simulation function. The animated IR Indicator will blink **twice** (the screen will change to the setup screen).

The original channel +/- function of your TV (if present) on the CH+/- key will now be sacrificed.

**Example: to cancel the “Channel +/- Simulation” in TV mode:**

1. **Press and hold the MAGIC key until the rabbit** comes out of the hat (the screen will change to the setup screen).
2. Press **OTHER**.
3. Press **9 7 1**. The IR Indicator will light up twice.
4. Press the device (e.g. **TV**) which should give you the original CH+/- function. The animated IR Indicator will blink **four times** (the screen will change to the setup screen).

The CH+/- function of your TV (if present) will now be restored.

- 
- *The Channel +/- simulation will be limited to: 1 – 9, 0.*
  - *It is only possible to switch Channel +/- simulation on for one mode at a time.*
-

## Extra Features

### Volume Punch-Through

This feature allows you to adjust the volume of a certain mode (e.g. TV mode) while being in a different mode (e.g. VCR). If for example you're watching a programme on your Video, you can adjust the volume (a TV function) without first pressing the TV key. The chart below lists some of the possibilities:

Last key pressed:	You can control:
SAT :	TV volume up and down, mute
VCR :	TV volume up and down, mute
DVD :	TV volume up and down, mute
CD :	TV volume up and down, mute
AUD :	TV volume up and down, mute

Example: To punch through to AUD volume, being in any other mode (e.g. VCR, SAT or DVD mode):

1. **Press and hold down the MAGIC key until the rabbit** comes out of the hat (the screen will change to the setup screen).
2. Press **VOLUME**.
3. Then press the **AUD** key and the animated IR Indicator will blink **twice** and the remote will return to the setup screen.

Result: being in any (e.g. DVD) mode, you will be able to control VOL+/- or MUTE functions of your AUD.

#### To cancel the "Volume Punch Through" per mode:

Example: to cancel the "Volume Punch Through" for the VCR mode:

1. **Press and hold down the MAGIC key until the rabbit** comes out of the hat (the screen will change to the setup screen).
2. Press **VOLUME**.
3. Then press the **VOL (-)** key.
4. Press **VCR** once. The IR Indicator will blink **four times** and the unit will return to the SETUP screen.

Result: being in VCR mode, you will be able to control VOL+/- or MUTE functions of your VCR (provided it has volume control).

#### To cancel the "Volume Punch Through" for all modes:

1. **Press and hold down the MAGIC key until the rabbit** comes out of the hat (the screen will change to the setup screen).
2. Press **VOLUME**.
3. Then press the **VOL (+)** key and the IR Indicator will blink **four times** and the screen will return to the setup screen.

Result: In all modes the VOL+, VOL- and MUTE keys will now operate the original functions again.

## Extra Features

### Device Sleeptimer

If your device has a "SleepTIMER" function built in, you can access this function with your **KAMELEON 6** remote. To do so:

1. Make sure your **device** is **switched on**.
  2. Press the device key **TV** (or **SAT, CD, AUD**).
  3. Point the **KAMELEON 6** at your device and press and release the **MAGIC** key then press **POWER**. You should see the SleepTIMER activate on your device. To increase the timer, simply press **POWER** again (within 10 seconds) until the timer gets to the desired time.
- 
- To deactivate the "SleepTIMER", repeat steps 1 – 3 above. During step 3, continue pressing **POWER** again (within 10 seconds) until the timer indicates zero minutes.
  - Depending on how you used sleepTIMER on the original remote, you might need to access sleepTIMER in a different way (through menu for example).
- 

### The **KAMELEON 6** - Timer

The **KAMELEON 6** – Timer function allows you to activate a <desired function> from a specific <device mode> within a <specific amount of minutes> (max. amount of timer is 60 minutes).

- 
- The <desired function> can be an existing function within a specific mode, a Macro, a Key Magic function or a Learned function.
- 

Example: you want your TV to switch off after 45 minutes.

1. **Press and hold the MAGIC key until the rabbit** comes out of the hat (the screen will change to the setup screen).
  2. Press **OTHER**.
  3. Press **9 8 5** to enter the **KAMELEON 6** –Timer programming mode. The animated IR Indicator will blink twice.
  4. Press **TV** to select the mode where the **KAMELEON 6** – Timer function will come from. The animated IR Indicator will blink twice.
  5. Press the **POWER** key to select the desired function. The animated IR Indicator will blink twice.
  6. Now press **4 5** to enter the amount of minutes after which the <Desired function> needs to be activated (e.g. for 5 min. press 05, max. up to 60).
  7. Press and hold **OK** for a duration of 3 seconds to activate the **KAMELEON 6** – Timer function.
- 
- Invalid key presses during the programming of **KAMELEON 6** - Timer will be ignored.
  - The <Desired function> can be any key except for Device keys, **SCROLL** and **MAGIC**.
  - While the **KAMELEON 6** – Timer is running, the IR animation will light every 15 seconds.
  - The **KAMELEON 6** –Timer function is cancelled by setting up a new **KAMELEON 6** – Timer function.
  - Upon entry of an invalid key sequence, the remote control shall display one long IR illumination of the IR animation and the remote will return to the **SETUP** screen.
  - If no key is pressed while setting up a **KAMELEON 6** – Timer function, the remote will return to user mode after 30 seconds.
  - The **SCROLL** key can be accessed any time during programming if applicable in the current device mode.
-

## Extra Features

### KAMELEON 6 - Recall

The **KAMELEON 6 - Recall** function allows you to program up to two channels, each consisting of a maximum of 4 key presses per channel entry. This allows you to swap back and forth between two channels with the press of a single key.

1. Press the **MAGIC and PP keys together until the rabbit** comes out of the hat. The animated IR Indicator will blink twice.
2. Enter the first channel number **exactly as you would on your original remote** (e.g. <-/->, <1>, <2> to get channel number 12).
3. Press **PP once** and release. The animated IR Indicator will blink once.
4. Enter the second channel number **exactly as you would on your original remote** (e.g. <-/->, <2>, <3> to get channel number 23).
5. Press the **MAGIC key**, the IR animation blinks twice.  
If you press PP, you will obtain the second channel programmed (being <23>) and if you press PP again you will obtain the first channel programmed (being <12>).

- 
- *The KAMELEON 6 - Recall is mode dependant and can only be programmed in TV or SAT mode.*
  - *The KAMELEON 6 - Recall Feature is only programmable in one mode at a time.*
  - *To enter only one channel number, skip steps 3 and 4.*
  - *If two channel numbers have been stored previously, entering one new channel will delete the oldest entry.*
  - *If no key is pressed while in KAMELEON 6 – Recall mode, the remote will return to user mode after 30 seconds.*
- 

#### To reset the PP key:

1. Press the **MAGIC and PP keys together until the rabbit** comes out of the hat. The animated IR Indicator will blink twice.
2. Press **PP** and release. The animated IR Indicator will blink once.
3. Press **MAGIC** and release. The animated IR Indicator will blink twice.

## Extra Features

### Macros (sequence of commands)

#### ■ Macros (direct)

You can program your *KAMELEON 6* to issue a sequence of commands at the press of one button. For example, you may want to turn off your TV, VCR and Satellite at the same time. Any sequence of commands you regularly use can be reduced to one key stroke for your convenience. A key that is programmed with a Macro works through all modes (provided it's accessible in that mode). Therefore a Macro can best be set on either the A, B or C key. However, you can install a Macro on any key (provided it's accessible in that mode), except for the device keys (TV, VCR, SAT, AUD, CD and DVD), the MAGIC key and the SCROLL key.

Example: To set up a Macro *that switches off your TV, VCR and SAT* on the "A" key on your *KAMELEON 6*:

1. **Press and hold MAGIC until the rabbit** comes out of the hat (the screen will change to the setup screen).
2. Press **MACRO**.
3. Press the device key (e.g. **TV**) to display all keys of the mode.
4. Then press the key to which the Macro will be assigned, in this case the "**A**" key.
5. Next press **TV, POWER, VCR, POWER, SAT, POWER**.
6. To store the Macro, **press and hold MAGIC until you get two blinks on the IR Indicator and the rabbit disappears** (the screen will return to the setup screen).

Result: Whenever you press the "**A**" key, the *KAMELEON 6* will turn off your TV, VCR and Satellite receiver.

- 
- Each **MACRO** can consist of a maximum of 15 keystrokes.
  - To include a function from a particular screen in a mode, use the **SCROLL** key.
  - Make sure that you program a Macro on a spare key that you don't use in any mode.
  - Once you program a Macro on a specific key, the sequence will work regardless of the mode (TV, VCR, SAT, CD, AUD or DVD) you are using (if the label is the same as the label on which the Macro was programmed). This means that the function picked on that specific key will be sacrificed.
  - To avoid accidental recordings with the *KAMELEON 6*, you must press the **RECORD** key twice to begin recording. Please note that if you assign a Macro or Shifted Macro to the **RECORD** key, this will deactivate the double key press. Therefore we recommend not to assign a Macro to this key.
  - If you had to hold down a key for a few seconds on the original remote control to get a function, this function may not work in a macro on your *KAMELEON 6* remote.
  - Keys such as (TV) menu, (VCR) menu etc. will not change screen when pressed during Macro programming.
  - Upon changing the batteries your Macro(s) will be retained.
  - If you program a Macro on a key, the original function will become shifted (excluding **POWER**, **CH+/-** and **VOL+/-** keys). Press **MAGIC** then the key to access it. If you place a Macro on a digit key, access the original function by pressing **MAGIC** twice and then the digit key.
  - You can replace a Macro by placing another Macro on top.
-

## Extra Features

### Shifted Macros

It is also possible to place a *shifted* Macro on a key to maintain the original function.

Example: To set up a Shifted Macro *that switches off your TV, VCR and SAT* on the "RED" key on your *KAMELEON 6*: (so that you will keep the original function on the "RED" key).

MAGIC*	MACRO	TV	MAGIC	"Red"	TV, POWER, VCR, POWER, SAT, POWER	MAGIC**
--------	-------	----	-------	-------	---	---------

Now every time you press "**MAGIC**", then the "**red**" key, the *KAMELEON 6* will turn off your TV, VCR and Satellite.

- If a Shifted Macro is placed on the POWER, CH+/- or VOL+/- keys, the Sleptimer and Colour/Brightness features will be sacrificed.

### To erase a (direct) Macro

Example: To erase the Macro from the "A" key, press:

MAGIC*	MACRO	TV	"A"	MAGIC**
--------	-------	----	-----	---------

### To erase a (shifted) Macro

Example: To erase the Shifted Macro from the "red" key press:

MAGIC*	MACRO	TV	MAGIC	"red"	MAGIC**
--------	-------	----	-------	-------	---------

- 
- (\*) Hold down the MAGIC key until the rabbit comes out of the hat (the screen will change to the setup screen).
  - (\*\*) Hold down MAGIC until the IR Indicator will blink twice and the rabbit will disappear (the screen will change to the setup screen).
-

## Extra Features

### Code Upgrade Technology

Your *KAMELEON 6* contains a unique feature, which allows new codes to be added simply by holding it to your telephone. In a matter of seconds, our magnetic coupling technology quickly and reliably transfers information to the *KAMELEON 6* without complex plugs, adapters or attachments. This means, as you buy new products in the future, the *KAMELEON 6* will never become obsolete.

#### Internet download

(Upgrade your *KAMELEON 6* remote...via your PC)

1. Visit our website "[www.oneforall.com](http://www.oneforall.com)".
2. Select **your region**.
3. Select "**Product support**".
4. Select "**Universal Remote Controls**".
5. Select **the ONE FOR ALL remote** you want to upgrade: *KAMELEON 6* (URC-8206).
6. Select '**Internet Download**'.

Now you have entered our special Online Download section. From this point just follow the instructions on the screen for easy upgrade of your remote.

#### Phone upgrade

(Upgrade your *KAMELEON 6* remote...via your phone)

Alternatively ring our consumer help-line and one of our customer service representatives will assist you through the entire process of upgrading your *KAMELEON 6*. To ensure the process goes smoothly, here are a few steps to follow:

1. Write down the brand name(s) and model number(s) of your device(s) in the space provided on the Consumer Service page before you call.
2. Ring our consumer help-line and explain which device(s) you would like added to your *KAMELEON 6*.
3. After our customer service agent records the brand name(s) and model number(s) of your device(s), he/she will lead you through the set up procedure and then will ask you to hold the *KAMELEON 6* to the speaker portion of your telephone (see diagram below). In doing this, the information needed for your device is transferred through the telephone into your *KAMELEON 6* in a matter of seconds.  
**Please note, cordless telephones, speaker telephones and mobile telephones are not recommended.**
4. After your *KAMELEON 6* has been upgraded by telephone, stay on the line. Our customer service agent will ensure that your *KAMELEON 6* is working properly with your device(s) and will answer any other questions you may have.

## Extra Features

### Key Magic®

(How to program missing functions)

Key Magic® is an exclusive ONE FOR ALL feature. The design of the *KAMELEON 6* ensures that many functions of your original remote control can be operated - even those that do not have their own key on the *KAMELEON 6* keypad. Frequently used functions can be assigned to a key of your choice using the Key Magic® feature of your *KAMELEON 6*. In order to program a certain function with Key Magic® you need to know the corresponding function code. As the function codes vary with different types of devices, they cannot be found in the manual. You can request your function codes through our consumer service help-line, by letter, fax or e-mail.

All we need to know is:

- Brand and Model number of the device in question (for verification if you are using the correct code).
- The 4-digit set-up code your device is working with.
- How the function was labeled on your original remote control.

You can also visit our website ([www.oneforall.com](http://www.oneforall.com)) to find an answer to your questions.

**Once you obtain(ed) your function code(s) from customer service, programming the code is easy:**

1. **Press and hold the MAGIC key until the rabbit** comes out of the hat (the screen will change to the setup screen).
2. Press **KEY MAGIC**.
3. Press the device key (**TV, VCR, SAT, DVD, CD or AUD**).
4. Press the **MAGIC** key once.
5. Enter the **5-digit function code** (provided by customer service).
6. Press the **key to which the function will be assigned** (if this key is located in a different screen than the main screen, use the **SCROLL** key to access the screen). The IR Indicator will blink twice and the screen will return to the Setup screen.

- 
- *Key Magic® functions are mode specific. To access the function you have programmed, press the device key first.*
  - *Key Magic® can be assigned to any key EXCEPT the following: Device keys, MAGIC key and the SCROLL key.*
  - *Please note all the extended function codes you obtain from customer service for easy future reference.*
  - *Keys such as (TV) menu, (VCR) menu etc. will not change screen when pressed during Key Magic® programming.*
- 

### EXTENDED FUNCTION REFERENCE

(first entry is an example):

DEVICE	SET-UP CODE	FUNCTION	FUNCTIONCODE
TV	0556	16/9 format	00234

# Trouble-Shooting

## Problem & Solution

### Problem:

### Solution:

Your brand is not listed in the code section?	Try the search method on page 11.
The <i>KAMELEON 6</i> does not operate your device(s)?	A) Try all the codes listed for your brand. B) Try the search method on page 11.
The <i>KAMELEON 6</i> is not performing commands properly?	You may be using the wrong code. Try repeating the Direct Set-Up using another code listed under your brand or start the search method over again to locate the proper code.
Problems changing channels?	Enter the program number exactly as you would on your original remote.
Video / PVR / DVD / CD / AUD not recording?	As a safety feature on your <i>KAMELEON 6</i> , you must press the Record key twice.
The <i>KAMELEON 6</i> does not respond after pressing a key?	Make sure you are using new batteries and are aiming the <i>KAMELEON 6</i> at your device.
Your original remote had a "20" key?	You can find this function on the AV key.
Upon each keypress, the top segment of the IR indicator will blink 5 times.	Replace batteries with 2 fresh, new "AA/LR6" alkaline batteries.
You are not able to enter programming mode?	Replace batteries with 2 fresh, new "AA/LR6" alkaline batteries.

To conserve battery life, your Kameleon remote is fitted with a light sensor, which adjusts the brightness of the display to suit its environment. For example, it is not necessary to have the display at full brightness in a darkened room, so the remote dims the display somewhat.

If you do not require this function, it can be disabled. To do this:

1. **Press and hold down the Magic key** (for about 3 seconds) until the rabbit comes out of the hat (the screen will change to the setup screen).
2. Press **OTHER**.
3. Press **9 9 9**.

The animated IR Indicator will blink **four times** and the light sensor is now disabled.

To re-enable it, repeat the above steps and the IR Indicator will blink twice.
